

To John and Lex,

We are very pleased to write this letter of recommendation for HJH General Contractors, Inc. They have completed the first remodeling phase of our home to our complete satisfaction. We plan on a second phase and have awarded HJH the job without seeking quotes from any other construction companies. It was a pleasure working with John Johansen and Lex Heinold, as well the rest of the HJH construction crew.

HJH's employees were always courteous, mindful of property and willing to offer constructive suggestions, while providing high quality work. We continued to live in our home throughout the construction which covered about 50% of the house. Throughout this period, the construction crew kept the construction area clean and made the experience as painless as possible. They were always willing to answer questions or explain particular aspects of their work. During the construction period we had very heavy snows. With activity in the state at a standstill, an HJH crew came to shovel off the snow and did as much work as possible through the period. We considered this to be above and beyond normal service.

We found HJH to be cost competitive and they were willing to make changes or additions to the job with minimal upcharge. We have complete confidence in HJH to provide an excellent job at a fair price

HJH used subcontractors who exhibited the same qualities as the overall HJH team. They were skilled and very knowledgeable, solving various unique situations in our design.

We were extremely satisfied with John and Lex and the HJH team and highly recommend them to anyone considering remodeling or new construction. They have done a wonderful job converting our designer's concept into reality.
